

April 29, 1977

Admiral Standfield Turner  
Director  
Central Intelligence Agency  
Washington, D.C.

STAT

STAT

Dear Admiral Turner:

STAT

Congratulations on your appointment to the Director of Central Intelligence Agency position. Having been a member of the "Turner, Bailey and Zoll, Inc.," family for seven years, prior to accepting the position [redacted]

STAT

[redacted] I have been able to follow your career in Government Services; however, my last account of your fabulous career was when [redacted] sailed with you on the Frigate Command, (direct from [redacted]).

STAT

At a later date [redacted] announced that you were elevated to the top position of "Head of the War College". I was not aware that you were Nato Commander until your appointment to the Central Intelligence Agency.

Believe me Director Turner, my family and I will sleep much better knowing that Stan Turner is watching over this precious country of ours. We are in great need of more government officials of the quality that you and your family represent. Your recent action regarding the two C.I.A. agents most assuredly confirmed my confidence in your judgement.

Best of everything in your latest endeavor. I sincerely hope that [redacted] is able to find a hat that will fit.

STAT

Warmest personal regards.

Sincerely,

STAT
